

We are working hard to do our part in addressing environmental issues.

Our mission statement:

Bradshaws is committed to providing our customers with the best value in merchandise available.

A family-owned business since 1895, we strive to showcase product from Canada and around the world, offering merchandise from companies with a vision of improving the industry aesthetically, or through design, quality, value for dollar, or increased environmental and social responsibility.

Through carefully chosen product lines and friendly and informative customer service, Bradshaws endeavours to inspire our customers to more carefully consider the objects around them - to **“buy it once and buy it well”**. We would like to demonstrate that the word ‘value’ means much more than price alone, but a quality that will provide lasting satisfaction to the user. For these reasons we would like to be regarded as a positive example in the retail marketplace and remain vital in a competitive world where the aforementioned values are increasingly compromised.

-  We feature a vast array of merchandise that will last a lifetime, thereby not contributing to landfill.
-  We feature products made of sustainable materials such as bamboo and recycled plastics.
-  We feature design driven products made locally in Canada.
-  We use environmentally friendly cleaning products in our store.
-  We replaced our entire store's lighting with environmentally friendly compact fluorescent lightbulbs to reduce the amount of energy we use.
-  We introduced Bradshaws' first ever reusable shopping bag.
-  We switched all our plastic shopping bags to EPI biodegradable.

We know we still have a long way to go, but we are committed to improving our impact on the environment.
